- ☑ Strong decision maker
- ☑ Project Management
- ☑ Client Management
- ☑ Quick Learner
- ☑ Motivated
- ☑ Innovative
- ☑ Creative
- ☑ Flexible

Project Highlights

Carne Group
Platform Enhancement: Develop platform for Carne Groups largest external clients and aligning IT development with internal clients/BAU. I was tasked with combining the requirements and managing the relationship of Carnes two highest profile clients.

J.P. Morgan
Platform Build: Created a scalable new back office platform for JPM alternative investments business which was then adopted into their mutual funds business. Total AUM on platform: +€300bn

Quintillion - US Bank
Trade Overloads: Client start trading in excess of 1 million trades a day or 125,000+ trades an hour. Solved a complex issue using existing platforms by amalgamating data trends in trade files.

Synergy Project Post Takeover: After being acquired by US Bank I was tasked with forming a project team to learn each other's business and systems requirements. The objective was to merge both platforms and renegotiate vendor contracts as one entity to ensure maximum efficiency.
